## NEW Battery Glazer 17

The days of working with a corded ultra high-speed burnisher are over. The Battery Glazer 17 floor machine from Tornado® is a one-of-a kind burnisher that operates on gel batteries instead of a standard power cord. You no longer have the hassle of plugging and unplugging the unit as you clean different areas. This whisper-quiet 59 dBa unit delivers two hours of solid run time before the batteries need to be recharged. Delivering 1500 RPM pad speed and a built-in dust control feature to pick up small dust particles in its path, the Battery Glazer 17 greatly increases your cleaning productivity, saving you time and money!

Visit [www.tornadovac.com/knowledge/moviegallery.aspx](http://www.tornadovac.com/knowledge/moviegallery.aspx) to see a short Demo Video, or contact your local Tornado Dealer for a demo.

## CLEANING TIP:

### Minimize Hard Floor Maintenance

Proper preventative and routine maintenance is important for all flooring types. The more maintenance you do, the less often you'll have to strip and recoat floors, which is expensive, labor intensive, and can also be harmful to the indoor environment. The problem is compounded in day cleaning situations, where it can be hard to work around the schedules of building occupants. Try using an eco-friendly battery-powered burnisher with maintenance-free gel batteries. Some systems provide a dust-control feature to pick up dirt particles in its path, are whisper-quiet so they do not disturb building occupants, and they can produce up to 1,500 rpms—more than enough to produce a high-gloss shine.
