The Summer Sizzle is the Time to Think Winter

"Ice melt can play a major role in preventing slip-and-fall accidents because it rids your surfaces of ice."

It's hot...it's humid...that must mean its summer in Iowa and Illinois. While you're busy trying to beat the heat, don't forget to think winter. Now is the best time to get the best prices on your winter ice melt.

Ice melt can play a major role in preventing slip-and-fall accidents because it rids your surfaces of ice. Great Western stocks several different ice melts. Each is made with different

ingredients and has different characteristics. From liquid products to fight the snow before it hits, to dry ice melt with accelerators to help speed the melting process we have something to fit your specific needs.

No matter which ice melt you use, remember to have adequate entrance matting at your doors to help eliminate winter's crud from your

building. Mats can prevent 85% of dirt from entering your facility.

Take advantage of pre-season ice melt pricing now and save time and money when the snow starts to fall. Contact your Great Western Supply representative or call our office at (563) 445-6644 to place your order today for delivery at the end of October.

Great Western Supply Carpet Seminar
