Great Western News

The Great Western Facelift

"We're happy to announce that the Great Western renovations are complete."

Over the past couple of months Great Western Supply has been under construction. We're happy to announce that the renovations are complete and the new entrance and loading area are ready for use.

We've moved our main doorway so you now enter directly into our showroom. We've also added a long loading dock so we can service multiple customers at one time. The new expanded loading area is

covered and has a ramp from our warehouse for fast and convenient order pick-up.

Great Western Supply appreciates your

patience while we made the improvements to our building and we hope the new layout will help us to better serve your needs.
