Green Cleaning Of Schools Becomes Law

Ask Mr. Janitor:
What does the new Green Cleaning in Schools Legislation mean to me, to my staff, and to my school?

On May 16, 2007, the Green Cleaning of Schools Act passed the Illinois Legislature by a 52-5 margin and became law. The law requires all elementary and secondary schools in Illinois to purchase environmentally sensitive cleaning products and to set-up Green Cleaning programs at all schools.

To assist our customers and friends to better understand Green Products and how to set-up Green Cleaning and Green Buildings, Great Western Supply is hosting a seminar on these Green subjects at *The Mark Of The Quad Cities* in Moline, Illinois on Wednesday, June 13. Experts from several national companies will be presenting the seminar. The seminar will run from 10:00 to Noon, followed by a buffet lunch with a question and answer session to follow lunch.
