

FRESH 'N EASY[®]

READY-TO-USE RESTROOM DRIP DEODORIZING SYSTEM FOR URINALS AND TOILETS

with Dispenser

PRODUCT DESCRIPTION:

The FRESH 'N EASY Ready-to-Use Restroom Drip Deodorizing System is a simple, low-cost, odor counteractant method designed to automatically freshen urinals and toilets ... 24 hours a day!

READY TO USE:

Unlike most drip systems, FRESH 'N EASY liquid deodorants are ready-to-use. There's no need to mix and no messy spills. No employee guesswork. 32 ounce custom bottles are easy to store and distribute. Labeling is comprehensive and includes HMIS information, CAS #'s, and ingredients to assist maintenance employee OSHA training.

FRESHENS 'ROUND THE CLOCK:

FRESH 'N EASY liquid deodorant neutralizes urine and fecal odor at their source. Helps keep urinals and toilet bowls clean and freshened at all times.

PREVENTS ODOR BUILD-UPS:

Because FRESH 'N EASY liquid deodorant drips continuously into toilets and urinals, formation of odor causing bacteria in plumbing systems is nearly eliminated.

ECONOMICAL:

Costs pennies per day! Dependent upon adjustment, just one 32 ounce bottle of FRESH 'N EASY liquid deodorant lasts up to one month. The wick is preset to provide 28-30 days of freshness. If more odor control is desired simply lower the wick into the front reservoir.

USER AND ENVIRONMENTALLY FRIENDLY:

Non-flammable. Non-toxic. Biodegradable. Non-staining to ceramic and porcelain surfaces. Super Bloom will remove color from some urinal screens.

THREE FRAGRANCES TO MEET SPECIFIC MARKET NEEDS:

FRESH 'N EASY liquid deodorant fragrance formulas target specific market needs from small area, ladies restrooms to large, industrial plant restrooms. Recommend FRESH 'N EASY NABC Fresh Scent fragrance for use in combination with Spartan NABC Non-Acid Bathroom Disinfectant Cleaner. FRESH 'N EASY Airlift Smoke & Odor Eliminator is the perfect companion to aerosol Airlift Smoke & Odor Eliminator. FRESH 'N EASY Super Bloom is the best choice when heavy deodorization is required.

Fragrance	Characteristics	Fragrance Level
NABC Fresh Scent	Floral, Fresh and Clean	Light to Moderate
Airlift Smoke & Odor Eliminator	Citrus, Outdoor Fresh	Moderate to Heavy
Super Bloom	Fruity, Bubble Gum	Heavy to Very Heavy

THE FRESH 'N EASY DISPENSER:

A gravity-feed dispensing system, the FRESH 'N EASY Dispenser is made of tough, flexible and easy-to-clean polypropylene. It's molded in one operation; and is virtually trouble-free. No moving parts, no batteries, no micro switches, and no electrical hook-ups required. Adjusts to meet fragrance dispensing rate needs.

PACKAGING:

FRESH 'N EASY Dispensers are packaged 6 per case. Each is individually polywrapped and includes: a reusable dispensing cap, wick and wick holder, installation accessories, tube and wire, and an instruction sheet.

DIRECTIONS FOR USE:

Open drip dispenser. Remove bottle. Pry off dispensing cap. Pour any residual fluid into toilet. Discard empty bottle into plastic recycling bin. Unscrew cap of new bottle and push the dispensing cap firmly onto the new bottle. Throw away old wick and holder. Replace with new wick assembly, adjusting to meet dispensing rate needs. (See instruction sheet.) Invert and insert new bottle. Close dispenser cover.

PACKAGING:

Spartan FRESH 'N EASY Ready-to-Use Liquid Deodorant for Urinals and Toilets (NABC Fresh Scent, Airlift Smoke & Odor Eliminator, and Super Bloom) is packaged in quarts, 12 per case. Each case includes 2 reusable dispensing caps, 12 wicks and wick holders, and instructions.
