Prestige™

Lotion Skin Care System

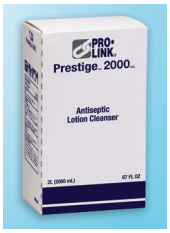
Get more product in a smaller amount of space with Pro-Link's Prestige dispensing systems. These rugged, ADA compliant dispensers feature a cabinet interior and unique dispensing valve. Larger capacity means less refill time and fewer complaints.

Features include:

- Large site window for refill status
- Easy loading and installation
- Factory-sealed refills eliminate risk of germs

◀ **Prestige 1000** is half the size of traditional 1000 bag-in-box dispensers, making it the ideal choice when wall space is at a premium. It can be placed anywhere – entryways, hallways, and over sinks.

Prestige 2000 doubles the capacity in the same amount of space. It is easy-to-install, and is the best choice for high-volume, high-traffic locations. ▶



A variety of soaps are offered for the Prestige dispensers. They range from basic lotion skin cleanser to an antiseptic lotion that helps fight MRSA and E-coli viruses. The Green Certified Lotion Cleanser is biodegradable and meets the Green Seal™ environmental standard for institutional hand cleaners. A hair and body shampoo is also offered. A perfect solution for health clubs. Our (alcohol-free) waterless hand sanitizer is perfect for use when soap and water are not available.
